STUDIO

Sophy's studio is located at the Industrial Center Building in Sausalito's historic Marinship District. The landmark ICB was built in 1942 as part of a large shipyard complex during WWII. Today it is home for 100 artist studios and a vibrant creative community. Open studios events are held during the first weekend of December and the first two weekend of May.

Studio visits are welcome
by appointment.

My paintings are an ongoing narrative exploring the marking of time, and the space in-between, as individuals how do we define this element of being.

Drawing from references to mythology and biology, I build a visual language that is multi layered and repetitive, seeking to render in form that which is inherently intangible.
